School Fees Grades 1-12

Parents may opt for an income-adjusted tuition rate for their child. The monthly school fee is then based on the child's grade level and on the family's income (sum of all positive gross earnings of the legal guardians). The various tuition fee levels are listed in the table below. To receive an income-adjusted tuition rate, parents must submit a copy of their most recent income tax report.

Should parents decide against applying for an income-adjusted tuition rate or fail to submit their tax report, the maximum rates will apply, as outlined in the table below. We reserve the right to reassess the income details submitted as required.

Parental Contribution for Day Care (Hort) – grades 1-6

For the possibility of day care, from 1.30 pm to 6 pm, a day care voucher registration at the local district office is advised. The parental contribution is then income-based and in accordance with the Child Care Co-Payment Act (TKBG).

In the case that there is a day care voucher available only up to 4 pm, instead of up to 6 pm, the fee increases by EUR 65 per month. If there is the request for day care but no day care voucher is submitted, monthly fees of EUR 450 will be borne by the parents.

Admission Fees

Families must pay a one-time admission fee of EUR 1,100 per child. For families with a gross annual income of less than EUR 40,000 this one-time fee is the same amount as their monthly tuition fee.
