

Summer Programs 2018

Universities do not close their doors during the summer vacation. On the contrary, it is popular among many students all over the world to go to a summer school abroad to train and develop while experiencing a new and exciting learning environment. Some international students go to summer schools to practice their language skills, some want to learn more about subjects they are interested in, and others want to test how they like a completely new field of interest. Universities often provide different summer course options so that everyone can pick something that will make their summer unforgettable. Please see attached the list of summer schools. In order to provide our BMS students, with as many opportunities to prepare, the university and career counseling office, recommends the following summer prep programs:

1. AFRICA - SUB-SAHARAN

AFRICAN LEADERSHIP ACADEMY: SOUTH AFRICA

Global Scholars Program

July-August

The Global Scholars Program (GSP) at African Leadership Academy is an overnight leadership experience for high school students from across the world. Students aged 13-19 spend 10 or 18 days with peers from around the world engaging in social entrepreneurship, design-thinking, social entrepreneurship, cross-cultural exchange, and adventure challenges prepare future leaders to create change across Africa and the world. A great opportunity for teens to learn about the beauty and diversity of South Africa.

Contact: summer@africanleadershipacademy.org

2. ASIA & OCEANIA

ASHOKA UNIVERSITY: NEW DELHI, INDIA

Ashoka Young Scholars Program

May 20-27

The Young Scholars Programme at Ashoka University, Delhi-NCR, India is a unique summer residential programme which introduces high school students to the idea of a liberal arts education. It is a certified, week-long, residential programme where students are exposed to different disciplines through experiential and hands-on learning. The programme includes a range of activities including lectures, workshops, discussion groups, project-work, presentations and performances. This programme is for outstanding high school students who are studying in Class 11 and 12. With its unique interdisciplinary coursework taught by world-class faculty, this programme is an excellent introduction to the academic and cultural environment of college life at Ashoka University.

RITSUMEIKAN ASIA PACIFIC UNIVERSITY:

BEPPU, JAPAN

2018 Academic and Cultural Experience (ACE) Program

Option #1: July 1- 8

Option #2: July 30-August 6

We invite you to join the 2018 ACE (Academic and Cultural Experience) Program, an exciting and unique study abroad experience at Ritsumeikan Asia Pacific University (APU), an international university in Beppu, Japan. The program is conducted entirely in English. High school students from all over the world who are between grades 10 and 12 at the time of this program are welcome to apply. We are offering the program twice this year, and you can choose the schedule that best fits your interest and availability. As a participant in this program, you will engage in workshops and group work focused on the themes of language and culture while being fully immersed in APU's diverse environment. Through these activities, you will develop your multicultural understanding and intercultural communication skills. This program also includes a home stay and other activities with the local community, where you will experience authentic traditions and the hospitality of Oita Prefecture. Participating in the ACE Program will allow you to make friends with people from other countries, while learning about language and culture. This will undoubtedly be an unforgettable experience that will contribute to your future. Don't miss this once-in-a-lifetime opportunity!

TS COLLEGE TOURS: SINGAPORE

TS College Tours

Various

TS College Tours provides college visits for students who are attending international and American schools abroad, and who plan to attend university in the US, UK or Canada. Each program is approx. a week long, visits 10-12 different colleges and universities, and has between 20-28 student participants. Our tour leaders are all extremely experienced high school counselors (over 100 years combined counseling experience in over 20 international schools) who have an understanding of the unique backgrounds, experiences and needs of third-culture kids. In addition to visiting colleges, our programs offer evening seminars on various college admission topics including essay writing, interview practice, and application strategies are held during the tour. Students learn all about the application process and receive valuable advice from the tour leaders throughout the tour.

3. CANADA

UNIVERSITY OF WATERLOO: WATERLOO, ON

University of Waterloo IDEAS Summer Experience

July 14-29

The IDEAS Summer Experience is a 2-week enrichment program for smart teenage innovators interested in addressing some of the world's most serious challenges. Participants prepare for future university success by developing valuable research, problem solving, and communication skills; learn from our award-winning professors; live in a university residence; participate in on- and off-campus social activities; and apply their new knowledge in coming up with possible solutions to big world problems—the BIG Idea. IDEAS is for international students entering Grades 11 or 12 (ages 15-18). Our program is distinctive because of its multidisciplinary nature. Applications are due by February 18, 2018. Program cost: \$4,400 CAD.

Contact: ideascoordinator@uwaterloo.ca

UPPER CANADA COLLEGE: TORONTO, ON

Upper Canada College Summer Life

Session A: July 15-August 4;

Session B: August 5-25

The UCC Summer Life program brings students from Canada and around the world to Toronto for a 3-week enrichment program. The Summer Life program comprises 3 sections: Junior (ages 10-11), Intermediate (12-13), Senior (14-15). Campers in the Junior and Intermediate divisions will choose from a wide variety of one-week day camps: soccer, golf, baseball, hockey, basketball, robotics, space, coding, game tech, theatre, dance, visual arts, debate and public speaking. Senior campers participate in a leadership-in-training program, stressing initiative, volunteerism, and mentorship. Campers are accommodated in newly renovated and secure residences on a 40-acre campus in downtown Toronto. Applications open December 1. Cost: \$4,995 CAD.

4. EUROPE

THE AMERICAN FARM SCHOOL:

THESSALONIKI, GREECE

Greek Summer

June 29-July 29

Greek Summer is an excellent choice for students eager to explore the world and themselves, to make a difference today and to develop their potential to be change makers in college and in their world. Greek Summer participants have an opportunity for hands-on learning about sustainable living and agriculture during their ten days on our working farm. Our farm is nestled on the Aegean Sea and looks out to Mount Olympus. A particularly meaningful part of the program is the family stay in a traditional Greek village where students spend days exploring village life, conducting community service projects, and developing relationships with their Greek families and villagers that can last a lifetime. While changing the lives of their hosts, they change their own lives and perceptions - making this summer more than a simple vacation. We are in Greece, so experiences extend beyond the farm and the village to sample the rich culture and history that surrounds them. Students summit Mount Olympus and sail the Aegean to visit some of the most beautiful islands in Greece. Their time in Greece fittingly closes bicycling around Athens in the shadow of the Acropolis. Past participants have viewed their time in the program as life-changing and cherish the memories and the relationships that they developed. This experience is like no other, building powerful memories while setting students apart. Greek Summer will give your students something to remember for a lifetime and to share with friends and family!

Contact: greeksummer@afs.edu.gr

ECOLE HOTELIERE DE LAUSANNE:

LAUSANNE, SWITZERLAND

EHL Summer Academy

July 8-14

Take part in a series of workshops that offer an exciting blend of theory, practice and fun!

Here are some of the activities on offer:

- Explore the latest trends in the hospitality sector,
- Become a chef for a day,
- Learn what 'service excellence' and 'kitchen management' mean,
- Find out what leadership is,
- Improve your teamwork skills by taking part in a group exercise based on a real-life hospitality case study.

Various outings are also scheduled such as a visit to a five-star hotel and to a local vineyard in the Lausanne area. Our summer academy welcomes two English-speaking groups and one French-speaking group. Each group is composed of maximum 30 participants.

THE NEW SCHOOL, PARIS: PARIS, FRANCE

Summer Intensive Programs at Parsons Paris

Two sessions in June and July

Summer intensive studies at Parsons Paris allow students to experience Paris, a vibrant city, from an insider's perspective by exploring the many facets of art, design, fashion and photography firsthand throughout Paris. The program is open to all students who wish to deepen their knowledge and develop their skills in a rigorous and stimulating academic environment. Classes are held at Parsons Paris, a short walk from the Louvre, Opera Garnier, and Gaité Lyrique media arts center. Many classes will also meet in locations throughout the city, ranging from art and design exhibition settings to architectural landmarks and parks, with coursework complemented by excursions and day trips. Housing is available for students registered for classes during both summer sessions.

UNIVERSITY OF MISSOURI: COLUMBIA, MO
Career Exploration Summer Program
July 12-27

The Mizzou International Experience (MIE) is an educational program designed specifically for high school students and educators around the world. This program is designed and developed by Mizzou K-12, College of Education at the University of Missouri. The Career Exploration Summer Program is a 15-day, action-packed experience, during which students explore a taste of many potential 21st century careers. Students or "explorers," discover their strengths through a series of self-assessment activities. The explorers interact with industry professionals and university faculty, during site visits to Fortune 500 companies and academic departments.

Contact: mucoemie@missouri.edu

UNIVERSITY OF NOTRE DAME: NOTRE DAME, IN
Pre-College Summer Programs
Summer Scholars: June 23-July 7
Leadership Seminars: July 14-25

Summer Scholars participants spend two weeks in one of 20 exciting programs of study. We keep the classes small and personal attention from Notre Dame faculty high. The coursework is a true preview of college academics: it is both rigorous and rewarding, and students earn one college credit upon the completion of a program track. Students collaborate on coursework outside designated class times, as they would in any college setting. There is also ample time to enjoy the social facets of college life, especially those unique to Notre Dame. Leadership Seminars explore topics in one of three areas affecting the global community: American Arts, Popular Culture, and Social Change; Global Issues: Towards a Just Peace; and Science, Ethics, and Responsibility. The courses are centered around vibrant discussion and a robust exchange of ideas. In this context, students are encouraged to examine their own conclusions and hone their own leadership capacities by improving their communications and analytical skills. Expenses for students accepted to Leadership Seminars—including transportation to and from Notre Dame—will be paid for by the University. Approximately 100 students are admitted to Leadership Seminars each year, and students are eligible to receive one college credit upon completion of the program.

SALEM STATE UNIVERSITY: SALEM, MA
Summer English Language and Culture Program:
July 9-August 17 OR May 21-June 29
Summer Intensive English Language Program:
July 9-August 17 OR May 21-June 29

Our Salem State University summer Intensive English Language and Culture Program combines intensive language immersion with cultural experiences and excursions. With six levels of English, we are able to meet the needs of all learners. With a historic seaside campus 18 miles from Boston, we are able to expose students to the rich history of both Salem and Boston. Salem, Massachusetts was founded in 1626 and is not only known for the historic witch trials but as a hub of trade and commerce. We have a world-class museum in Salem, the Peabody Essex, which we use as a learning laboratory for our students. We are also Nathaniel Hawthorne's birthplace and home to the House of the Seven Gables that inspired this literary classic. Our location at the edge of the ocean also provides access to regional fishing and whaling museums and Salem State's Cat Cove Marine Laboratory if this is a desirable theme for language electives. Through differentiated instruction and scaffolding theme and task-based learning, we are able to weave the culture and history of the US, the New England region, and historic Salem into our coursework. There are also numerous beaches and parks in Salem that lend themselves to exploration and integration into dynamic courses that emphasize academic preparation through integrated skills and language immersion. Our website: <https://www.salemstate.edu>

SARAH LAWRENCE COLLEGE: BRONXVILLE, NY
Sarah Lawrence College Pre-College Summer Programs
July 1-August 3

The mission of Sarah Lawrence College is to graduate world citizens who are diverse in every definition of the word, take intellectual and creative risks, and cross disciplinary boundaries within a framework of humanistic values and concern for community. We bring this mission to each of our pre-college summer programs. Summer students explore their passions and create dynamic work alongside a talented and engaged community of peers in the areas of Creative Writing, Filmmaking, Social Justice, and Assistive Technology. They connect their passions with the wider world and see firsthand how their endeavors improve our community. Working closely with top-notch faculty, students gain real-time feedback, which keeps them plugged into the latest industry trends. Outside of classes, field trips and social activities foster new friendships and allow students to explore the greater NYC area. Both day and residential options are available on our beautiful, wooded campus in Bronxville, Westchester County, New York, half an hour north of midtown Manhattan. Programs vary in length from one to five weeks. Many students use the work they create at Sarah Lawrence in their college application portfolios. More information about each program is available online.

STEVENS INSTITUTE OF TECHNOLOGY:
HOBOKEN, NJ
Stevens Pre-College Programs
June-August

Stevens Pre-College programs provide high school students with academic and social enrichment programs to experience a collegiate atmosphere first-hand and explore a potential college major. Participants live on campus in residence halls, participate in academic modules and research projects taught by Stevens faculty and make lifelong friendships. Our programs are for rising Juniors and Seniors, range from one to two weeks in length and offer more than just an in-class experience. We provide a well-rounded experience to ensure students a growing both academically and socially. While a large portion of their time is spent in class and doing research, we make sure to plan off-campus excursions, social programming on campus, and all programs participate in a farewell dinner cruise on the Hudson River. In addition, students have the opportunity to develop their critical thinking and public speaking skills by working on research projects throughout the week which they present to their peers and their families on the final day of the program. We offer over 20 sessions in 13 different subject areas including: Engineering, Architecture, Coding & App Design, Computer Science, Cyber-security, Business, Pre-Med, Pre-Law, Virtual Reality, Electronic Music Production, Game Design and more! Visit our website for more information.

STONY BROOK UNIVERSITY, SUNY:
STONY BROOK, NY
Summer in the U.S.A.

July 15-28

Stony Brook runs a 2-week summer program for international high school students where our students are immersed in English instruction, exciting academic lectures, demonstrations and labs taught by Stony Brook faculty in courses such as engineering, pre-med, marine science, math, etc. In addition, we offer US admissions projects including college campus tours at Ivy league schools and cultural activities in New York City and Long Island. This year the program will run July 15, 2018 - July 28, 2018. During the program we host the Math League Competition which is a world-wide math competition.

SYRACUSE UNIVERSITY: SYRACUSE, NY
Summer College for High School Students
July 2-August 10

Syracuse University Summer College for High School Students explore college majors and experience college life before graduating high school. More than 30 credit and non-credit courses, two to six weeks in length, are taught by SU faculty and instructors. Students come from 30 US states and more than 20 countries each summer. Students navigate daily life much like a college student, from living in a residence hall, having meals with friends in a campus dining hall, taking college-level classes each day, and par-

participating in social programs and events. Students have access to campus resources, including academic support services, recreational facilities, and more. Summer College also organizes college tours across central NY, trips to an amusement park and Niagara Falls, and more.

**TCNJ THE COLLEGE OF NEW JERSEY:
EWING TOWNSHIP, NJ
TCNJ's College Prep Academy
July 1-21**

The College of New Jersey (TCNJ) is once again hosting the Summer Academy program in July 2018! The Academy program is a short-term cultural learning and university preparation experience for international high school students beginning or ending the equivalent of grades 9th, 10th and 11th. Academy participants will tour local colleges and universities, attend workshops on various U.S. college and university topics such as admission and academic success skills, have meetings and lectures with department faculty, and more. Program participants will also engage in fun on and off-campus cultural and recreational activities. If you meet with students who are U.S.-bound, the Academy program is a great opportunity for them to sample the variety of higher education institutions here in the Northeast New York City area. We will be offering one full scholarship and a limited number of partial scholarships. For more information on TCNJ, visit <https://tcnj.pages.tcnj.edu/>

Contact: esl@tcnj.edu

**UNION COLLEGE: SCHENECTADY, NY
Union College Summer STEM Program
July 8-August 3**

The Union College Summer Program gives talented international high school students the opportunity to live, learn and think like a college student in a welcoming, supportive environment. Students explore cutting-edge technologies, learn the ethical and cultural ramifications of technology, and develop essential oral and written communication skills. Prominent faculty work closely with small classes (15 or fewer students) to guide students through the scientific and technical spaces where ideas intersect and new solutions emerge. A small, highly selective independent college in upstate New York, Union College has world-class programs in the liberal arts and engineering.

Summer Program highlights include:

- Hands-on workshops on microcontrollers using the Arduino platform
- Ethics in engineering and technology
- Introduction to data analytics and visualization
- Entrepreneurship and its historical content
- Focus on oral and written communications skills

**UNIVERSITY OF ROCHESTER: ROCHESTER, NY
Pre-College Programs**

July 1-August 11

The University of Rochester's Pre-College Programs offer domestic and international high school students a variety of academic summer program options. Participants can take advantage of various classes from our extensive program portfolio while experiencing college life in our residence halls and on-campus. Students can join in an intensive three-week program in engineering, film, medicine or business. Others can opt to take a course for college credit, while the remainder explore exciting hands-on experiences through our noncredit college-like seminars that reflect Rochester's areas of study in the fields of the arts, engineering, history, humanities, medicine, modern languages, music, and sciences. Our partners from around the community include the Eastman School of Music, the Medical Center, the School of Nursing, the Simon Business School and the Hajim School of Engineering.

**WORCESTER POLYTECHNIC INSTITUTE:
WORCESTER, MA**

Frontiers Program

Session I: July 8-20

Session II: July 22-August 3

WPI's Frontiers program is for soon-to-be high school juniors and seniors who are interested in science, technology, engineering, math, and robotics fields. Students learn current laboratory techniques and explore unsolved problems across a wide spectrum of STEM disciplines. Rounding out the academic experience are humanities and arts workshops in areas such as writing, art, music, theater, etc. Learn from outstanding professors utilizing state-of-the-art technology, and enjoy added activities such as evening workshops, field trips, movies, live performances and tournaments.

**YALE UNIVERSITY: NEW HAVEN, CT
Yale Young African Scholars (YYAS) Program
Two sessions between July 25 -August 25**

The Yale Young African Scholars (YYAS) Program is a cost-free, intensive academic and residential program designed for high-achieving African secondary school students. YYAS exposes students to various opportunities for post-secondary education. Participants will enhance their academic skills, receive university admission and financial aid application guidance, and join a network of young leaders from across the continent! Applicants must currently attend a secondary school in Africa and have at least one full academic term remaining after August 2018 to complete their studies. Admission is highly selective and open to students between the ages of 14 and 18. *YYAS is free for all participants.*

Contact: laura.kaub@yale.edu

YALE UNIVERSITY: NEW HAVEN, CT
Yale Young Global Scholars Program
Six sessions between June 17-August 9

The Yale Young Global Scholars Program (YYGS) is a summer academic enrichment and leadership program that brings together outstanding high school students from around the world for intensive two-week sessions on Yale's campus in New Haven and the Yale Center Beijing in China. Participants attending a YYGS session in New Haven can expect an amazing summer experience studying in beautiful campus lecture halls and classrooms, living in Yale's historic residential colleges, eating in award-winning dining halls, meeting a talented community of fellow students, engaging with world-renowned professors, and interacting with extraordinary visiting practitioners. Participants attending a YYGS session in Beijing, China will have the opportunity to experience Yale's world-renowned education while exploring one of the most culturally-vibrant and influential cities in the world. In addition to bringing some of Yale's most renowned professors to China, this session will take advantage of its location by inviting distinguished professionals with real-life experience to lecture on relevant, important issues. Students will also have the opportunity to visit significant cultural sites, such as the Great Wall and the Forbidden City. YYGS-Beijing is limited to 90 students, making an intimate atmosphere for students to learn and make connections with their instructors and peers. This is the third year YYGS is offering a session in China, but the first time it is doing so during the summer.

AMERICAN UNIVERSITY: WASHINGTON, D.C.
College Programs for High School Students
Community of Scholars at AU's School of International Service: July 9-27

Designed for rising junior and senior high school students, the Community of Scholars Program at AU's School of International Service is an opportunity for academically-outstanding high school students to take a 3-credit course that blends a week of online learning with two weeks of traditional on-campus classes. The program introduces students to the advancing fields of U.S. foreign policy, cross-cultural communication, and international peace and conflict resolution. Students learn from highly regarded AU faculty in small, interactive classes while obtaining college credit. Students will experience how national and international leaders put theory into practice through guest speakers, site visits, and an introduction to the institutions of Washington that turn ideas into action. Taking a college course helps prepare students for the expectations of higher education and will add value to their college applications and resumes.

AMERICAN UNIVERSITY: WASHINGTON, D.C.
College Programs for High School Students
Discover the World of Communication:
2-4 week programs, June 19-July 13

Discover the World of Communication: Excellence. Innovation. Impact. American University offers students ages 14-19 an extraordinary opportunity to explore the field of communication in a dynamic university setting through participation in two-, three-, or four-week workshops in the School of Communication's Discover the World of Communication summer program. Students have the opportunity to build a portfolio of photographs, shoot a film, write a news story like a pro, speak with confidence, or influence positively for the environment. American University School of Communication faculty and professionals in the communication field teach our 32 professional hands-on classes. Topics include: International Communication, Public Speaking, Documentary Filmmaking, Nature Photography, Graphic Design, and The Film Intensive. Read more at audiscover.org

COLLEGE OF CHARLESTON: CHARLESTON, SC
Senior Project
July 15-20

Senior Project is a week-long, college preparatory program serving the multicultural/first generation, rising high school seniors. Over the course of six days and five nights on campus, you will:

- Live on campus with current College of Charleston students
- Learn about academic programs offered at the College of Charleston
- Visit local corporations, including: Boeing, Bosch, Mercedes and the Port of Charleston
- Experience the No. 1 city in the country and America's most beautiful campus
- Visit the Medical University of South Carolina or the Charleston School of Law
- Take a practice SAT/ACT combination exam as well as an English language exam
- Attend a college lecture and interact with professors
- Visit the Center for International Education and learn about life as an international student
- Learn about international scholarships and how to apply for undergraduate admissions

Contact: jcsaleeb@cofc.edu

FLORIDA INSTITUTE OF TECHNOLOGY:
MELBOURNE, FL
Camp Florida Tech

Extraordinary options for summer learning and fun in the areas of sports, academics and art for children ages 3-18. Art classes are day camps held at the Renee Foosaner Art Museum in downtown Eau Gallie while the academic and athletic camps are held on the Melbourne main campus. On-campus children have fun honing their athletic

skills or diving deeper into their favorite academic fields. Overnight campers also get to experience campus life first-hand. Plus, full-day participants get to eat lunch in our fabulous Panther Dining Hall. Most camp options are day camps, but there are some week-long residential camps for middle and high school students.

MCNEESE STATE UNIVERSITY: LAKE CHARLES, LA
McNeese Summer Camps in Engineering and Biochemistry
July 16-August 3

McNeese State University offers three-week long summer camps for high school students (entering 9th, 10th, 11th, and 12th grades) who are interested in the Sciences. The cost is \$1850 per student and includes room and board and laboratory supplies. The 2018 Summer Engineering Academy will give broad exposure to engineering disciplines (chemical, civil, electrical, and mechanical) by getting involved with hands-on projects dealing with real-life engineering issues. The 2018 Crocodilian Biochemistry Internship will engage students in research to investigate the immune system of the American alligator. Students will travel to marshes to catch alligators in the wild, collect blood samples, and conduct a variety of experiments to measure the efficiency of different compounds on their immune system.

UNIVERSITY OF TEXAS AT AUSTIN: AUSTIN, TX
International Academy
July 14-August 11

International Academy is a short-term summer program for international students aged fifteen to eighteen years old. It aims to provide an immersive experience in a top-ranked global university to improve students' skills and prepare them for further studies abroad. Students of International Academy will select an accounting or engineering track. For the last eleven years, accounting at The University of Texas at Austin (UT) has ranked number one in the United States. International Academy students of accounting will gain exposure to the practice business in the US, learn from business experts, make company visits, and gain skills in business English and US culture. In UT's Cockrell School of Engineering, nine undergraduate programs are internationally recognized as top-ranked. International Academy students of engineering will get hands-on experience identifying and solving engineering problems and improve their scientific written and oral communications in English.

CHAPMAN UNIVERSITY: ORANGE, CA
High School Workshop in Experimental Economics
June 25-29

The Smith Workshop in Experimental Economics for high school students is both a rigorous academic experience and a remarkable opportunity to meet other high-achieving students. Participants are selected from rising high school seniors, and involvement in the week-long session is free including all materials and a daily lunch. The program is for those rising seniors who might not have the opportunity to study economics in their high schools, the objective of these workshops is to expose them to and get them interested in the foundations of economic analysis using experimental economics. A subset of the students may have already taken economics classes, and for those students, the goal is to cultivate their interest in economics and introduce them to economics as an observational science with new topics, problems, and experiments. This workshop does not assume any previous study in economics.

Contact: dumas@chapman.edu

CHAPMAN UNIVERSITY: ORANGE, CA**Summer Film Academy****June 15-29 and July 1-14**

For two weeks students are immersed in the world of film through class discussions, film screenings, guest speakers, field trips, and filmmaking in small groups. They live, breathe and eat filmmaking around the clock while being taught by Chapman faculty who are industry professionals and mentored by current Dodge College grad students and alumni. All of this will be shared with their peers as they work in groups to complete projects to create short digital, narrative projects which are showcased to parents and relatives on the final night of the program in our 500-seat Folino Theater.

Contact: summerfilmacad@chapman.edu

LOYOLA MARYMOUNT UNIVERSITY:**LOS ANGELES, CA****Pre-College Summer Programs****Varied dates during June & July**

Our two-week residential programs are designed in close partnership with renowned faculty to help high school students explore academic passions, evolve as individuals, and discover what it means to have the heart of an LMU Lion. Our 2018 programs will explore topics like environmental science, the myth of the American West in literature and film, political science themes, sports and entertainment business, and entrepreneurship. Many programs also include an excursion in the Los Angeles area. Please visit our website for detailed course descriptions.

UC BERKELEY EXTENSION: BERKELEY, CA**College Foundations Program (CFP)****June 18-August 10 (8-week); July 2-August 10 (6-week); August 27-December 14 (Fall Term)**

UC Berkeley Extension's College Foundations Program prepares high school juniors and seniors or recent high school graduates for university study. Students take part in college-level courses to build English skills, become familiar with U.S. university classroom discussions and assignments and boost TOEFL and SAT scores. In addition, CFP students receive personal college admissions advising and guidance. Current high school students can choose to attend CFP for a summer term, while recent high school graduates are encouraged to apply for the fall or spring semester or a full academic year (spring and fall), sometimes called a "gap year."

Contact: cfp@berkeley.edu

UNIVERSITY OF COLORADO BOULDER: BOULDER, CO**EducationUSA Academy****July 2-28, 2018**

The EducationUSA Academy at the University of Colorado Boulder is a university preparation program designed for IB, AP, Cambridge, and other academically accomplished

15-17 year-old international students from public and private high schools.

Contact: edusaacademy@colorado.edu

UNIVERSITY OF COLORADO BOULDER: BOULDER, CO**Science Discovery****Dates vary**

Science Discovery offers an extensive array of immersive summer experiences for high school students. Students can choose between 1, 2, 3 and 4-week programs. All programs provide students with a chance to collaborate with CU Boulder faculty and graduate students, while working in CU STEM-based facilities.

Contact: kathryn.penzkover@colorado.edu

11. U.S.A. - NATIONAL

NATIONAL STUDENT LEADERSHIP CONFERENCE**Various Locations****Various Dates: June, July, & August**

The NSLC hosts career-focused, leadership development conferences each summer for outstanding high school students from all over the world. We provide opportunities to: 1. Experience life on a U.S. college campus (including UCLA, UC-Berkeley, Northwestern, Fordham, Harvard Medical School, Yale, American, Georgetown, Georgia Tech, Rice, Vanderbilt, and U. of Washington); 2. Develop leadership skills; and 3. Explore a future career through simulations, site visits and meetings with industry leaders. Fields of study include Business & Entrepreneurship; Medicine & Health Care; Engineering; Biotechnology; Architecture; International Diplomacy; Psychology & Neuroscience; Journalism, Film, & Media Arts; Law; Theater; and many more! In addition to our U.S.-based programs, we also offer an International Business program at Yale-NUS College in Singapore.

Contact: andrea@nslcleaders.org

PIONEER ACADEMICS: ONLINE**The Pioneer Research Program****Late June Through August**

The Pioneer Research Program offers college-level research opportunities to exceptional, motivated high school students globally. Selected students work one-on-one with leading professors in cutting-edge study of their interests, culminating in original research and authoritative evaluations from their professors. The Program is conducted entirely online, allowing high school students from all over the world to participate. More than 800 students from 27 countries researching in more than 20 academic areas have participated in the Program in the past six years.
