

Tuition Structure

School Year 2023/24

School Fees Grades 1-12

Parents may opt for an income-adjusted tuition rate for their child. The monthly school fee is then based on the child's grade level and on the family's income (sum of all positive gross earnings of the legal guardians). The various tuition fee levels are listed in the table below. To receive an income-adjusted tuition rate, parents must submit proof of their total income before tax from the previous calendar year.

Should parents decide against applying for an income-adjusted tuition rate or fail to submit their tax report, the maximum rates will apply, as outlined in the table below. We reserve the right to reassess the income details submitted as required.
